

Step 13 — Reporting (manual test guide)

Goal: Confirm report summary (monthly + category/department/vendor/payment breakdowns), filters, CSV export, and role access for `/reports` .

Maps to: Phase 5 — Reporting (CSV first; Excel/PDF later)

Do not start Step 14 until every required item passes.

Artifacts:

- Markdown: `docs/manual-test-guides/step-13-reporting.md`
- PDF: `docs/manual-test-guides/step-13-reporting.pdf`
- Postman: `docs/postman/FMS-API.postman_collection.json` (Reports folder)
- Depends on Steps 08–12 (expenses + dashboard filters)

Prerequisites

- ☐ Steps 01–12 already passing (or Step 12 checklist completed)
- ☐ PostgreSQL running; migrations applied
- ☐ Company admin + normal user in the same company
- ☐ Expenses across at least two months, with categories / departments / vendors / payment methods on some rows
- ☐ Optional: a custom expense field with **Show in reports** enabled (and one with it disabled)
- ☐ Server + client dev servers running

Setup commands

Server:

```
cd finance-management/server
npm install
npx prisma generate
npm run prisma:migrate
npm run dev
```

Client:

```
cd finance-management/client
npm install
npm run dev
```

Open <http://localhost:5173> and sign in as a **company admin**.

Checklist

A. Reports UI

#	Test	Expected	Pass?
---	------	----------	-------

A1	Open <code>/reports</code> from home	Summary cards + monthly table + by-category/department/vendor/payment tables	[]
A2	Period This year (or multi-month custom range)	byMonth shows more than one month when data spans months	[]
A3	Filter by category	Totals shrink; tables match filtered expenses	[]
A4	Filter by department / vendor / payment method	Same for each dimension	[]
A5	Custom range with from > to	Validation error (API 400 / UI stays or shows error)	[]
A6	Empty future custom range	Zero totals; empty/zero tables	[]

B. CSV export

#	Test	Expected	Pass?
B1	Click Download CSV (this month)	Browser downloads a .csv file	[]
B2	Open CSV	Columns include id, type, occurredOn, amount, notes, paymentMethod, category, department, vendor	[]
B3	CSV type = Expenses only	Only EXPENSE rows	[]
B4	Custom field with show-in-reports	Extra column with that field key appears when values exist	[]
B5	Field with show-in-reports off	That key is not a CSV column	[]

C. Roles

#	Test	Expected	Pass?
C1	Normal user <code>/reports</code>	Read-only summary + can download CSV	[]
C2	Normal user CSV	Custom columns only for fields marked visible to normal users (and show-in-reports)	[]
C3	Super Admin <code>/reports</code>	Redirects home (no tenant)	[]

D. API (Postman or curl)

#	Test	Expected	Pass?
D1	GET <code>/api/v1/reports/summary?preset=this_month</code> (admin cookie)	200; summary, byMonth, byCategory, ...	[]

D2	GET /api/v1/reports/export.csv?preset=this_month	200; Content-Type: text/csv; attachment disposition	[]
D3	preset=custom without from/to	400	[]
D4	Invalid paymentMethod	400	[]
D5	Unauthenticated	401	[]

Pass criteria

All **required** rows above pass. Excel/PDF export remains out of scope here — covered in **Step 15**.

When all required items pass: mark related Notion tasks Done (FMS-38, FMS-39, FMS-40, FMS-41, FMS-42, FMS-43, FMS-46), then start **Step 14 — Income module**. Excel (FMS-44) and PDF (FMS-45) are Step 15.
