

Step 09 — Expense support data (manual test guide)

Goal: Confirm tenant-scoped Categories, Departments, and Vendors (CRUD + soft delete + audit), and optional linking on expense create/edit.

Maps to: Phase 3 — Monthly Expenses (support data)

Do not start Step 10 until every required item passes.

Artifacts:

- Markdown: docs/manual-test-guides/step-09-expense-support-data.md
- PDF: docs/manual-test-guides/step-09-expense-support-data.pdf
- Postman: docs/postman/FMS-API.postman_collection.json (Categories / Departments / Vendors folders)
- Depends on Step 08 (/api/v1/expenses)

Prerequisites

- ☐ Steps 01–08 already passing
- ☐ PostgreSQL running; migrations applied (includes step09_expense_support_data)
- ☐ Super Admin bootstrap env set in server/.env.local
- ☐ At least one company with a **company admin**
- ☐ A **normal user** in that company
- ☐ Server + client dev servers running

Setup commands

Server:

```
cd finance-management/server
npm install
npx prisma generate
npm run prisma:migrate
npm run dev
```

Client:

```
cd finance-management/client
npm install
npm run dev
```

Open <http://localhost:5173> and sign in as a **company admin**.

Checklist

A. Route access (UI)

#	Test	Expected	Pass?
---	------	----------	-------

A1	Home as company admin	Shows Categories & vendors link	[]
A2	Open /expense-support as company admin	Tabs for Categories / Departments / Vendors; add form visible	[]
A3	Open /expense-support as normal user	Redirects to home	[]
A4	Open /expense-support as Super Admin	Redirects to home (no tenant)	[]
A5	Open /expense-support signed out	Redirects to login	[]

B. Manage lookups (UI)

#	Test	Expected	Pass?
B1	Add category Travel	Row appears Active	[]
B2	Add department ops and vendor uber	Both appear	[]
B3	Edit category name / notes	Row updates	[]
B4	Deactivate a category	Status Inactive; disappears from expense pickers	[]
B5	Soft-delete a vendor	Leaves the support list	[]
B6	Duplicate name (same tab)	Error; not created	[]

C. Expense wiring (UI)

#	Test	Expected	Pass?
C1	Expenses form shows Category / Department / Vendor selects	Active options only	[]
C2	Create expense with category + vendor	Row shows names in list	[]
C3	Edit expense and clear category	Category column shows —	[]
C4	Soft-deleted vendor still shows name on older expense if FK kept	Name visible or — if SetNull after hard delete (soft keeps name)	[]

D. API (Postman or curl as company admin)

Login as company admin first (Auth → Login (company admin)).

#	Test	Expected	Pass?
D1	POST /api/v1/categories { "name": "Meals" }	HTTP 201; category.name is Meals	[]
D2	POST /api/v1/departments + POST /api/v1/vendors	HTTP 201 each; save ids	[]
D3	GET /api/v1/categories	Active list includes new row	[]

D4	PATCH category { "active": false } then GET ? active=true	Inactive row absent	[]
D5	POST /api/v1/expenses with categoryId, departmentId, vendorId	HTTP 201; nested { id, name } present	[]
D6	DELETE /api/v1/vendors/:id then GET by id	HTTP 200 then HTTP 404 VENDOR_NOT_FOUND	[]
D7	Audit: GET /api/v1/audit?entityType=ExpenseCategory	CREATE / UPDATE / DELETE entries	[]

Example:

```
curl -s -b cookies.txt -H "Content-Type: application/json" \
  -d '{"name": "Meals", "notes": "Food"}' \
  http://localhost:4000/api/v1/categories | jq
```

E. Negative cases

#	Test	Expected	Pass?
E1	POST category as normal user	HTTP 403 FORBIDDEN	[]
E2	GET /api/v1/categories as Super Admin	HTTP 403 TENANT_REQUIRED	[]
E3	GET /api/v1/vendors without cookie	HTTP 401	[]
E4	POST expense with another tenant's categoryId	HTTP 404 CATEGORY_NOT_FOUND	[]
E5	POST expense with soft-deleted categoryId	HTTP 404 CATEGORY_NOT_FOUND	[]

Pass criteria for Step 09

- ☐ All **required** checklist items above pass
- ☐ Categories, departments, and vendors are tenant-scoped
- ☐ Soft delete hides lookups from lists/get; expense FKs use onDelete: SetNull for hard DB deletes
- ☐ Expense create/update accept optional support ids and return { id, name }
- ☐ Company admin can manage lookups; normal user is read-only on lists (and cannot open management UI)

When all required items pass: mark related Notion tasks Done, then start **Step 10 — Attachments + list UX**.

Quick manual flow

1. Login as company admin
2. Home → **Categories & vendors**
3. Add one category, department, and vendor
4. Open **Expenses**, create an expense using those selects
5. Deactivate a category and confirm it leaves the picker
6. Soft-delete a vendor; confirm audit entries
7. Login as normal user: expenses list readable, no support management link
