

Step 17 — Admin shell UI (manual test guide)

Goal: Confirm signed-in screens share one sidebar layout, navigation is role-aware, guest auth screens still work, and unauthorized routes redirect home.

Maps to: Phase 1 — Foundation (FMS-9)

Depends on: Steps 02–04 and 16 (auth, RBAC, tenant users)

Artifacts:

- Markdown: docs/manual-test-guides/step-17-admin-shell.md
- PDF: docs/manual-test-guides/step-17-admin-shell.pdf
- Client: AppShell + Sidebar wrapping authenticated routes
- No new HTTP APIs (Postman: missing income attachment + user negative requests added in this step)

Prerequisites

- ☐ Steps 01–16 already passing (need a company admin, a normal user, and Super Admin)
- ☐ Server + client dev servers running

Setup commands

Server:

```
cd finance-management/server
npm run dev
```

Client:

```
cd finance-management/client
npm run dev
```

Open <http://localhost:5173>

Checklist

A. Auth screens (guests)

#	Test	Expected	Pass?
A1	Open /login signed out	Welcome-back card; subtitle about finance workspace	[]
A2	Open /register signed out	Create-account card; link back to login	[]
A3	Sign in as company admin	Lands on Home inside the sidebar shell	[]
A4	While signed in, visit /login or /register	Redirects to Home	[]

B. Company admin shell

#	Test	Expected	Pass?
B1	Sidebar sections	Overview, Finance, Setup, Account	[]
B2	Finance links	Dashboard, Reports, Expenses, Income	[]
B3	Setup links	Categories & vendors, Custom fields, Users	[]
B4	Click each sidebar link	Page loads without full reload; active item highlighted	[]
B5	Sign out from sidebar	Returns to login	[]
B6	Narrow the window	Top Menu opens the same nav	[]

C. Normal user shell

#	Test	Expected	Pass?
C1	Sign in as normal user	Sidebar has Home, Finance, Role & access	[]
C2	Setup links	No Users, Custom fields, or Categories & vendors	[]
C3	Open /users or /fields by URL	Redirects home	[]
C4	Expenses / Income	Lists visible; no create/edit forms	[]

D. Super Admin shell

#	Test	Expected	Pass?
D1	Sign in as Super Admin	Sidebar has Home, Companies, Audit trail, Role & access	[]
D2	Finance links	Not shown (no tenant)	[]
D3	Open /dashboard or /reports by URL	Redirects home	[]
D4	Companies + Audit	Pages load inside the shell	[]

Pass criteria

All **required** rows above pass.

When all required items pass: mark Notion task **FMS-9** Done.
