

Step 10 — Attachments + list UX (manual test guide)

Goal: Confirm expense list filters / search / pagination / sorting, plus secure receipt upload, download, and soft-delete.

Maps to: Phase 3 — Monthly Expenses (attachments + list UX)

Do not start Step 11 until every required item passes.

Artifacts:

- Markdown: `docs/manual-test-guides/step-10-attachments-list-ux.md`
- PDF: `docs/manual-test-guides/step-10-attachments-list-ux.pdf`
- Postman: `docs/postman/FMS-API.postman_collection.json` (Expenses folder — list query + Attachments)
- Depends on Steps 08–09 (`/api/v1/expenses` , support data)

Prerequisites

- ☐ Steps 01–09 already passing
- ☐ PostgreSQL running; migrations applied (includes `step10_attachments`)
- ☐ `server/.env.local` present (copy from `.env.local.example` if needed). Optional: `UPLOAD_DIR` , `UPLOAD_MAX_BYTES` , `UPLOAD_MAX_PER_EXPENSE`
- ☐ Company admin + normal user in the same company
- ☐ At least a few expenses with notes / category / vendor for filter checks
- ☐ Server + client dev servers running

Setup commands

Server:

```
cd finance-management/server
npm install
npx prisma generate
npm run prisma:migrate
npm run dev
```

Client:

```
cd finance-management/client
npm install
npm run dev
```

Open <http://localhost:5173> and sign in as a **company admin**.

Checklist

A. List filters / search / pagination (UI)

#	Test	Expected	Pass?
A1	Open /expenses	Month picker + Filters panel + paginated table	[]
A2	Search notes for a known substring	Only matching rows; page resets to 1	[]
A3	Filter by category (or department / vendor)	List narrows to that support id	[]
A4	Sort by Amount ascending	Amounts increase down the list	[]
A5	Create enough expenses to exceed page size (20)	Page controls appear; Next/Previous work; total count correct	[]
A6	Clear filters / change month	List refreshes for that month	[]

B. Attachments (UI)

#	Test	Expected	Pass?
B1	Create expense, stay in edit	Receipts panel appears under the form	[]
B2	Upload a JPEG or PDF	File listed; Files column shows 1	[]
B3	Download the file	Browser saves the original filename	[]
B4	Upload until limit (5)	6th upload shows error (ATTACHMENT_LIMIT)	[]
B5	Remove an attachment	Leaves the receipts list; Files count decreases	[]
B6	Reject .exe or other disallowed type	Error; not stored	[]

C. API (Postman or curl as company admin)

Login as company admin first (Auth → Login (company admin)).

#	Test	Expected	Pass?
C1	GET /api/v1/expenses? year=YYYY&month=M&page=1&pageSize=20&sortBy=occurredOn&sortDir=desc	HTTP 200; meta.total / meta.page present; each expense has attachmentCount	[]
C2	GET with q=taxi and/or categoryId=...	Filtered list	[]
C3	POST /api/v1/expenses/:id/attachments multipart field file	HTTP 201; attachment metadata (no storage path leak beyond needed fields)	[]
C4	GET /api/v1/expenses/:id/attachments	Array includes the upload	[]

C5	GET .../attachments/:attachmentId/download	Binary file; Content-Disposition filename set	[]
C6	DELETE .../attachments/:attachmentId	HTTP 200; GET list no longer includes it	[]
C7	Audit: GET /api/v1/audit?entityType=ExpenseAttachment	CREATE / DELETE entries	[]

Example upload:

```
curl -s -b cookies.txt -F "file=@./receipt.pdf;type=application/pdf" \
  http://localhost:4000/api/v1/expenses/EXPENSE_ID/attachments | jq
```

D. Negative cases

#	Test	Expected	Pass?
D1	POST attachment as normal user	HTTP 403 FORBIDDEN	[]
D2	GET list / download as normal user	HTTP 200 (read allowed)	[]
D3	Upload without cookie	HTTP 401	[]
D4	Upload to another tenant's expense id	HTTP 404 EXPENSE_NOT_FOUND	[]
D5	GET /api/v1/expenses as Super Admin	HTTP 403 TENANT_REQUIRED	[]

Pass criteria for Step 10

- ☐ All **required** checklist items above pass
- ☐ List supports month + search + category/department/vendor + sort + pagination (**meta**)
- ☐ Attachments are tenant-scoped; files are not publicly served; download requires auth
- ☐ Soft-delete hides attachments; audit logs CREATE/DELETE
- ☐ MIME / size / per-expense limits enforced

When all required items pass: mark related Notion tasks Done (FMS-23, FMS-24), then start **Step 11 — Thin dashboard**.

Quick manual flow

1. Login as company admin → **Expenses**
2. Add 2–3 expenses; filter by notes / category; flip sort and pages
3. Edit one expense → upload a PDF receipt → download it → remove it
4. Login as normal user: list/filter works; cannot upload
